

# Improve Quality of Life with an All-Inclusive Solution for Behavioral Health

## NextGen® Behavioral Health Suite

More than 400 behavioral health providers leverage NextGen Healthcare technology solutions to improve client care. These businesses benefit from better care coordination and clinical outcomes, reduced administrative burdens and errors, improved financial health, and expanded client access and engagement.

Configurable workflows and reports, dynamic and robust reporting, virtual visits, mobile documentation, and a digital pen enable clinicians and direct support professionals (DSPs) to collaborate efficiently with care teams. As a result, providers can spend more quality time with the individuals they serve.

“NextGen [Healthcare] enables us to be more effective and more thorough in our assessment and evaluation of patients coming in for behavioral services and ensure the safety and overall mental health of our population.”

**Rogenna Robinson**  
Behavioral Health Coordinator  
Brownsville Community Health Center

### NextGen Behavioral Health Suite enables you to:

- Simplify care with one solution for mental health, addiction, human services, physical health, and oral health
- Save valuable time, build consumer engagement, and retain client loyalty with a patient portal
- Maximize financial performance and capture revenue at the lowest cost
- Facilitate better care coordination with streamlined interoperability
- Identify high-risk, high-cost clients with population health management
- Increase efficiency and mobile crisis team outreach by documenting on smartphones or tablets
- Report with autonomy and meet federal and state data reporting requirements

NextGen Behavioral Health Suite extends beyond a classic medical and clinical setting with social and human services capabilities to support complex and diverse delivery systems in a fully integrated manner.

We're invested in fully meeting the complex regulatory needs for all commercial and publicly funded Medicare/Medicaid services as well as evidence-based clinical and service delivery information capture. We also fully support the revenue cycle management needs of complex community health, behavioral health, and social and human services organizations that offer in-facility, in-home, and virtual support.

## Leverage content that supports the most common treatment services, including:

- Outpatient and residential mental health and substance abuse services
- ASAM assessment, including Continuum® integration and CO-triage
- Opiate treatment program support
- Numerous screening tools and scales
- Methadone clinic support
- Targeted case management
- Peer support services
- Crisis mental health and behavioral health services
- Client-defined programs
- Robust behavioral health billing capabilities for residential and outpatient services
- Improved group scheduling functionality
- Out-of-the-box behavioral health reports and CCBHC quality measures

“CHE Behavioral Health is a dynamic, multidisciplinary practice, and we sought out a dynamic health tech solution that is capable of evolving as quickly as we are growing. We are excited to implement NextGen Behavioral Health Suite and work with a solution provider that understands the complexities of delivering quality mental health care.”

**Vu Nguyen**  
Chief Information Officer  
CHE Behavioral Health Services

Make a more meaningful impact on individuals, clinicians, and your community with one enterprise solution for behavioral health, human services, and comprehensive, integrated care.
