

NATIONAL INTEROPERABILITY FRAMEWORK

Access valuable information and data right in your workflow

Solution description

NextGen® Share plugs customers into a national data exchange and provider network to see a holistic view of the patient, allowing for communication across the care team. In addition, NextGen Healthcare customers have the ability to exchange data with external providers and organizations using Carequality, Direct Messaging, Surescripts Record Locator and Exchange, as well as federal entity connectivity.

What this solution enables

- Share data across national network of connected electronic health record vendors
- Optimize referral management via access to 1+ million health providers
- Access clinical data from other providers and organizations within your workflow

Cost Optimization

Revenue Maximization

Quality Improvement

Adoption Effort

Low

Impact

*Charges may apply in some instances.

What does this mean for your practice?

- Real-time access to millions of patient records across billions of encounters
- Seamless connectivity enables you to quickly and securely share data without leaving your EHR
- Interoperability services are delivered at no extra charge including no installation, transmission or maintenance fees*

“NextGen Healthcare has come a long way with interoperability and interconnectivity with other systems. It’s been amazing the transformation we’ve seen over the past 13 years.”

Dan Royal, Principal Application Analyst
